

# LENZ WINERY

EST. 1978

## ABOUT OUR WINES

Established in 1978, Lenz is one of the oldest wineries on the North Fork. We farm sustainably with a deep respect for the land, crafting only estate-grown wines that reflect the character of our vineyards and the place we call home.

Our wines are structured in three tiers to reflect both quality and vintage character. **Old Vines** represents our top wines, made only in exceptional years that produce grapes that lend themselves to wines with depth and aging potential. **Estate Selection** designates wines that deliver consistent quality year after year. **House Wines** are our approachable, everyday wines—reliable, balanced, and always enjoyable.

Since 1978, *Robert Parker's Wine Advocate* has been one of the most influential voices in wine, known for its rigorous tastings and global authority. Over the years, more than half of Lenz wines reviewed have earned scores of 90 or above, which are classified as "Outstanding": "exceptional wines with great complexity, character, and intensity, recognized for delivering compelling and memorable tasting experiences".
